Experience

Deloitte India (Offices of US) **Nov 2023 – Present**
Analyst 2— Junior Product Owner *Hyderabad, India*

- Led end-to-end project delivery of an enterprise tech client's internal Sales Asset Management and Pricing Platform, partnering proactively with design, DevOps, QA, and business stakeholders.
- Improved revenue-critical quote processing performance by eliminating redundant REST API dependencies and orchestration inefficiencies, reducing transaction latency from **4 minutes to under 10 seconds (95% improvement)** and accelerating sales execution workflows.
- **Enhanced platform security and access governance** by implementing OAuth 2.0 authentication, Base64 encoding, and Role-Based Access Control (RBAC) within **Oracle Cloud Infrastructure (OCI)**, safeguarding revenue-sensitive pricing and approval workflows.
- Validated pricing integrations and by analyzing API contracts and backend logic using **Postman, Chrome DevTools, and SQL (Oracle SQL Developer)**, ensuring pricing accuracy and data integrity across multi-system revenue workflows.
- Partnered with product teams to clarify **feature scope, prioritize backlog items, and translate business requirements** into well-defined user stories and acceptance criteria in **Confluence and Jira**, improving sprint predictability and reducing rework.
- Delivered 25+ production-grade user interfaces and integrated 60+ REST APIs across distributed systems; supported CI/CD pipelines and release workflows via Azure DevOps and GitLab while monitoring feature adoption and performance post-release.
- Resolved **20+ high-impact cross-system defects** across API contracts, authentication layers, and data mappings, improving platform stability, release reliability, and stakeholder confidence in enterprise deployments.

Entrepreneurial Experience

EduShots.com **Feb 2021 – Dec 2022**
Co-founder *Mumbai, India*

- Founded and led end-to-end project of a **content-driven digital platform from ideation to launch**, defining product vision, MVP scope, and establishing scalable contributor onboarding and content operations from scratch.
- Drove **10x growth in daily active users** and scaled to **5K+ monthly active users within 3 months** by implementing SEO-led acquisition strategies, structured keyword clustering, and continuous performance optimization
- Built and managed a **7-member cross-functional team** across content, design, and development, aligning execution priorities with product strategy, release timelines, and growth objectives.
- Owned end-to-end content and distribution strategy, delivering **75+ SEO-optimized articles** and **10+ infographics** while designing workflows to improve organic reach, engagement depth, and retention metrics.

Education

National Institute of Technology (NIT), Meghalaya **Aug 2019 – Jun 2023**
Bachelor of Technology (CGPA: 7.90) *Shillong, Meghalaya*

Technical Skills

Product & Strategy: Roadmapping, User Stories, PRDs, Competitive Analysis, A/B Testing, Design Thinking
Data & Analytics: SQL, KPI Tracking, Funnel Analysis, Google Search Console, Mixpanel
Cloud & Systems: REST APIs, OAuth 2.0, CI/CD Pipelines
Tools & Tech: Jira, Confluence, Azure DevOps, GitLab, Postman, Figma, Claude Sonnet, Machine Learning, AI
